

STEDMAN TELLS OF HIS TRANSACTIONS

EXPLAINS TO THE COURT HOW HE DIS-
COUNTED CLAIMS AND WHAT HE
DID WITH THE MONEY.

Russell T. Stedman was again placed under cross-examination this morning when the preliminary examination of G. B. Daniels was resumed before Police Justice Smith.

"Mr. Stedman, the first person you told about the money paying these bills was Mr. Hadley," asked Snook.

"Yes."

"Who was the next person?"

"Judge Nusbaum."

"Did you make an examination of the records to see if the bills were paid?"

"Yes."

"Did you testify yesterday that you had read in the proceedings of the Board of Supervisors that the bills were allowed?"

"I did not so testify, but that is a fact. I did read in the proceedings of the Board of Supervisors that the claims were allowed."

"You immediately reported the fact to Hadley?"

"Yes."

"Did you not inquire at the Treasurer's office to see if the bills had been paid?"

"No."

"Did you tell Hadley about the matter when you saw that the claims had been presented?"

"No."

"Did you tell Hadley after the bills were paid. I told him the work had never been done."

"Did you tell Hadley?"

"No."

"Were these claims both allowed on the same day?"

"No."

"Was it after the first claim was allowed that you told Hadley?"

"I told him after both claims were allowed."

"Was it then he said it looks like a cold steady?"

"I don't think he said that the first time we talked about it."

"What did he say?"

"He said: 'Well, that's pretty good, or something like that.'"

"Was there ever any other date on these bills than August 15th," asked Snook, showing witness one of the "Cakes" bills. While Stedman was looking at the paper, Chapman made some partially audible remark to Allen.

TALK OF CENSURE.

"I think counsel should be censured for that remark if it was intended for the witness to hear," said Snook.

"What was it I said?" asked Chapman with asperity.

"I will tell you after the witness has answered," retorted Snook.

"I want to hear it now," rejoined Chapman. "You made an accusation and I want it settled before we go any further."

"I don't want to go any further into it now," said Snook.

"You made your accusation, let's hear what it is," replied Chapman, angrily. "If you have no courage in your backbone let your friends infuse some into it."

"Mr. Chapman, proceed with the examination," said the court sharply.

Witness said the date August 17 had been originally written and he had altered it to August 15.

"Why did you do that?"

"Because Mr. Dalton told me to change the date when I was making out the bills."

"Who wrote the first date?"

"I don't know."

"Did you write the word cancelled on the order book by direction of Hadley?"

"I did: the bills had been allowed and paid without the work being done."

"Did you also write the word killed on the order?"

"Yes."

"By whose direction?"

"By Mr. Hadley's; he told me I had better protect myself."

"Did you give the order book to Hadley?"

"I did."

"Where did you get it?"

"On Read's desk."

"Did Hadley say he would keep the book as evidence against Daniels?"

"No, he didn't say that. He said something about its being evidence."

"Did Hadley direct you to write killed on the claim?"

"Yes."

"Did he tell you to do it for your own protection?"

"No."

WHAT HADLEY SAID.

"On Read's desk."

"Did Hadley say he would keep the book as evidence against Daniels?"

"No, he didn't say that. He said something about its being evidence."

"Did Hadley direct you to write killed on the claim?"

"Yes."

"Did he tell you to do it for your own protection?"

"No."

THE PRESIDENT SILENT ON THE FRIAR CASE.

Business Intrudes on His
Excellency at Oyster
Bay.

OYSTER BAY, July 11.—A question which is now engaging President Roosevelt's attention and which is giving him no little concern, is that respecting the negotiations with the Vatican for the withdrawal of the Friars from the Philippine Archipelago.

Mr. Roosevelt has received from Secretary Root the Pope's note in reply to Governor Taft's propositions cable-d to the War Department from Rome. It is announced that, until the negotiations have been brought to an issue, successful or otherwise, no formal statement by the administration will be made. When that time shall arrive, the statement will be given to the public by Secretary Root in Washington. Nothing will be made public here.

Senator McLaughlin of South Carolina, accompanied by D. D. Colcock, secretary of the Louisiana Cane Growers' Association, arrived here today. Mr. McLaughlin took luncheon with the President. Mr. Colcock saw Secretary Cortelyou, but did not see the President early in the day. He was desirous of discussing the Cuban reciprocity question with the President, feeling that he could make out a good case for the Southern sugar growers. Senator McLaughlin said his call was purely social, but it is not unlikely that Mr. McLaughlin's expected appointment as a Judge in the court of claims bench was under discussion.

Father Malone of Denver met the President at noon today by appointment. They were over the case of the priest, John D. Cushing, who endeavored to see the President several days ago but failed. Secretary Root is expected at Sagamore tomorrow.

AUDITED CLAIMS.

Snook then showed Stedman a bundle of audited claims and asked if they were in his handwriting. Stedman said yes. He also called his attention to several warrants and asked if witness had ever paid any of the money received on any of them to the Enquirer or Publishing Company.

Chapman presented a long list of objections, among which were immateriality, involving totally distinct transactions and being irrelevant to any matter brought out in direct examination.

"If we can show that this work was never done by the Enquirer, no charge ever made by the Enquirer for it and no money was ever paid the Enquirer, therefore, we think it affects the witness' credibility," said Snook.

Objected to as irrelevant and immaterial.

Snook showed the witness three warrants and asked him if he had not in each case turned into the Enquirer a less sum than the amounts named in the warrants. The amounts were all small.

Answers were all ruled out.

Recess was taken till 2 o'clock.

AFTERNOON SESSION.

Stedman took the stand again in the afternoon and Snook asked if witness had tried to sue out a warrant in any other court, but was met by an objection, which was sustained, although Stedman answered "no."

Then Snook suddenly dropped the cross-examination.

The District Attorney showed the witness the last claim hypothecated to Lanktree for money supplied by Mrs. Putnam, and questioned him as to when Dalton's authorization was placed on it.

"I wrote the matter in that claim other than the words 'Henry P. Dalton'?"

"I did."

"By whose direction?"

"Mr. Dalton's."

"How did you come to write it?"

"I told him a claim would have to be made out and approved as security for this \$800, and he said 'go ahead and make it out.'"

SECURITY.

"What was the security to be for?"

"For the \$800 I had given him."

"What conversation occurred between you and Mr. Dalton with reference to obtaining this money?"

"Mr. Dalton told me he wanted to give an order for 50 flat books to be paid for in July, and wished me to discount the bill for him so he could have the use of the money till the bill was paid by the county. I said 'all right,' and asked Mr. Lanktree, and he said he didn't want to deal in such large bills. Then I spoke to Mr. Hadley and he got the money from Mrs. Putnam to discount the claim."

TIME OF THE CLAIM.

"Was the claim made out before you gave Dalton the money?"

"No, I gave him the money first and told Dalton a claim must be made out and approved as security for the money."

On re-cross examination Stedman said Dalton signed the claim in blank before anything was written on it.

"Do you say he signed the words 'approved, Henry P. Dalton, Assessor,' before the claim was made out at all?"

Inquired the court.

"Yes, he signed it before there was a thing on it. He signed it and told me to fill out the claim."

"That's all," said Snook.

"That's all," said Allen.

MANY BODIES ARE TAKEN FROM MINE

OVER ONE HUNDRED MEN PERISHED IN
THE AWFUL DISASTER—SEARCH-
ING FOR THE DEAD.

JOHNSTOWN, Penn., July 11.—Early today it was not known how many perished in the awful disaster at the Rolling Mill Mine of the Cambria Steel Company. At 5 o'clock this morning eighty-seven bodies had been recovered. Of these forty-seven all contorted and many blackened and burned, and some of them headless, lie stretched on rough slabs in the improvised morgue in the Armory Building. Forty more are in cars in the mine ready to be borne out as fast as room can be made for them.

MANY ARE DEAD.

The latest estimate of the number of dead reduce the fatal scope of the calamity. But those, while fixing it at around one hundred, are not conclusive. General Mine Superintendent George T. Robinson would not say at this time whether he thought there were 100 or 300 dead. He says there is no way of knowing until a full investigation is made. When that will be, he says he has no means of telling. All rests with the difficulty to be encountered in clearing the heading of after-damp.

It was 5:30 o'clock when the first train-load of victims was brought to the mouth of the main entry.

Forty-nine cars were used in bringing forty-six dead bodies and four living injured. The discovery of the dead bodies was made by a searching party about 10 o'clock last night. They were lying in the main heading about two miles in from the main pit-mouth. No attempt was made to remove them until certainty was established that no more living remained in the mine.

SUDDENLY STRICKEN.

From the position of the bodies the miners were evidently eating their lunches when suddenly stricken by the explosion.

They were seated in groups of five and ten with their buckets and the remains of their lunches scattered over the floor. Evidently their lives were snuffed out quickly and easily. The first statement was given to the Associated Press representative by Superintendent Robinson at 7 o'clock this morning. He said: "As to the direct cause of the explosion I cannot exactly say. We know there was an explosion of fire-damp in the sixth right heading of a section of the mine commonly known as the Klondike. So far as I can find out now there were not more than three or four deaths in the explosion itself. The balance were caused by the fire-damp."

THE RESCUE WORK.

"Our mine officials, the mine foreman, Henry Rodgers, fire boss John Retallick, machine boss William Robinson, who is my brother, and a Slav, whose name I do not know, were back eating lunch when the explosion occurred. They immediately went down to the point of the explosion to put up the

THE GAGE CASE UP ONCE MORE IN THE COURTS

An Array of Legal Talent
and Arguments
Made.

SAN FRANCISCO, July 11.—The battle of the Governor and the editors of the Call shifted today to the court room of Judge Sloss.

Governor Gage had petitioned for a writ of prohibition, designed to knock out the case of criminal libel instituted against John D. Spreckels and Sam Leake of the Call by Louis P. Boardman, and Police Judge Fritz had been restrained from going on with the hearing.

The proceedings before Judge Sloss followed the issuance of an alternative writ. Attorneys E. F. Preston and J. C. Campbell, representing the editors, were present to show cause why the prohibition should not be made permanent, and A. A. Moore was on hand as the representative of the Governor. Among the interested auditors was the Governor himself.

Attorney Preston made the opening argument for the editors, contending that there might be a score of preliminary examinations on the same charge and no one be a bar to another. The only bar that could be urged would be an acquittal or a conviction.

"The sole question," he said, "is whether or not the inferior court has usurped jurisdiction or exceeded its power. Where it is found that the court has jurisdiction the writ of prohibition is always refused."

Continuing, Preston declared that the application must allege that the court is about to proceed in a matter over which it has no jurisdiction. There being no such allegation in the application at bar, the writ should be denied. The arguments will be resumed this afternoon.

Spreckels and Leake attempted to carry their fight to the Supreme Court at noon today, when they filed their expected petitions for writs of habeas corpus, but the court refused both applications. The order refusing the writs was signed by Chief Justice Beatty.

The rejection applications were intended to test the question of jurisdiction. This method had already failed in the Superior Court, Judge Cook deciding yesterday that the Court in habeas corpus proceedings had no right to take evidence contradicting the allegations of the complaint on which the warrant of arrest was issued.

CHIEF IS NOT GUILTY.

NEW YORK, July 11.—After a trial lasting until early today, Police Chief Crotty, of Patterson, N. J., was acquitted of the charges made against him by Mayor Hinchcliffe, who suspended him for alleged neglect of duty during the recent riots of striking silk mill workers.

Chief Crotty was reinstated in his office by the Board of Aldermen with full pay for the time of his suspension.

TRACY STILL LEADS HOUNDS AND MEN.

OUTLAW SAID TO BE HEDGED IN AND
THAT A BATTLE MAY SOON
BE EXPECTED.

SEATTLE, July 11.—Not a word of Tracy's movements since last night has been received here today. The posse and newspaper men are now out of reach of the lines of communication and the next dispatch received from the scene of action will contain the news of battle or escape. Rumors were afloat this morning that Tracy had been surrounded at a railroad bridge between Covington and Auburn and a little later the Sheriff's office received word that shots had been exchanged between a deputy and the convict.

CUDIHEE ON THE TRAIL.

TACOMA, July 11.—At 11:45 a. m. Tracy's train was picked up leading from Covington towards Lake Tapps.

TACOMA, July 11.—At 8 o'clock this morning, Sheriff Cudihee and numerous posses arrived at Covington about twelve miles from Tacoma, where Tracy eluded the posse at midnight. Every train going toward the Northern Pacific tunnel through the Cascades is stopped and searched. The location of the country is such that Tracy may be said to be naturally cornered in the point of a triangle and therefore developments are momentarily expected. All indications are that Tracy is following the Palmer railroad cut-off up the mountains keeping in the timber a hundred feet or so from the tracks. If he started at day light he now has five hours' start of the posse now following with the hounds.

MAY BE MERRILL.

SEATTLE, July 11.—A special to the Times from Covington, Washington, says a man answering the description of Merrill, Tracy's partner in the Salem out-break, appeared at Rovedale yesterday afternoon. The man held up a family two miles east of that place for a dinner, later returned to the house and procured a supply of provisions. The man carried revolvers, had two front teeth out and in other ways closely resembled Merrill. It is considered probable that Tracy and Merrill have a more or less well understood plan of action.

HOUNDS GET THE SCENT.

COVINGTON, Wash., 12:15 p. m.—The posse in charge of ex-Sheriff Jim Woolley, with Sheriff Zimmerman, has just arrived here. The train was halted a mile west of the station and the three hounds were liberated to make the attempt of picking up the scent from where the battle of last night occurred.

The dogs soon got the scent and

STATE BOARD OF ARBITRATION
DISCUSSES THE
SITUATION.

CHICAGO, July 11.—For the first time in years a meeting of the State Board of Arbitration was held today to discuss the situation of the Freight Handlers strike. At its conclusion, Chairman Frederick W. Job stated that it had been decided that he should visit the various railroad headquarters to learn the exact situation before attempting to formulate a new measure for bringing about a settlement.

A meeting of the Arbitration Committee will be held at 4 o'clock. President Curran of the Freight Handlers' Union said he believed the strike would be settled at that time.

The railroad general managers are now in conference with that section of the arbitration committee representing the Team Drivers' Association. All indications are regarded as still favorable to an early settlement of the strike.

JOAQUIN MILLER HAS A NEW WARD

Joaquin Miller, the poet, returned this morning from a lecture and prospecting tour in various parts of the Sierra mountains. He went immediately to his cozy home on Oakland Heights.

He was accompanied by a little girl named Rosie Gibson, the 12-year-old daughter of Squire Gibson, who for years was a well known personage in the vicinity of Redding in this State.

The squire was a frontier defender, and at the battle of Castle Rock Joaquin Miller served under him.

On his death bed the squire expressed a desire that Mr. Miller should take care of little Rosie.

Mr. Miller was pleased to comply with the request of his old comrade-in-arms, and accordingly the little girl was brought to the railroad station at Redding by her brother and delivered over to the poet.

This morning she went with Mr. Miller to his home on the heights behind this city, which command an unexcelled view of the bay.

ADAMS, SLAYER OF DR. JESSUP, AGAIN AT LARGE.

Released From Agnews
on Writ of Habeas
Corpus.

SAN JOSE, July 11.—The application of Charles D. Adams of Oakland for a writ of habeas corpus to secure his discharge from Agnews' Asylum, is being heard in the Superior Court this afternoon.

Adams has been an inmate of Agnews since last October, whether he was sent after an Alameda county jury had acquitted him of the murder of Dr. Jessup on the ground of insanity.

He took the stand this afternoon, talked rationally, was cool and collected and asserted that he was perfectly sane.

He admitted the killing of Jessup and said the act was committed while drunk and under great mental strain.

Doctors Hatch and Crane testified in the petitioner's behalf and the case will probably be submitted before night.

Judge Lorrigan sustained the writ and discharged Adams from custody.

**AL NEILL AND GIBBS
ARE TO FIGHT TONIGHT**

LOS ANGELES, July 11.—Preparations are complete for the meeting of A. L. Neill and "Young" Gibbs at Hazard's Pavilion tonight. Neill is given the advantage in the betting, thus far, odds being quoted at 10 to 8 in his favor.

Both men are in perfect condition and lovers of the game are looking forward to a fast fight. Considerable interest is shown in the ten-round preliminary between "Dixie Kid" and Kid Williams. Jack Woods and Clyde Burnham will furnish the other preliminary fight.

Harry Stuart will judge all three matches.

NOTICE TO MEN TO RETURN.

UNION PACIFIC GIVES WARNING
TO THE STRIKING
MACHINISTS.

OMAHA, Neb., July 11.—The Union Pacific Railway Company this morning gave formal notice to its striking shop men to return to work at once or forfeit their positions. The following notice was posted at the shops:

"Resumption of work having been decided upon, employees of the shops desiring to continue in the service of this company should report at the office at once. All employees not reporting for work at this time will be treated as new men in the future."

Signed: W. R. McKEEN,
Superintendent Motive Power.

President Wilson of the Machinists' Union said this would have no influence with his men.

McKeen admitted that the company was preparing to begin operations in all its shops. He said the company now had sufficient men to operate all its shops in a limited capacity and would soon be able to run them at full force.

**HIGHWAY ROBBERS
INCREASE IN 'FRISCO.**

SAN FRANCISCO, July 11.—Highwaymen are again at work in this city, the third robbery within two days being reported to the police this morning.

The victim was Silvio Bianchini who was attacked by four men at an early hour this morning, the robbers giving their victim an unmerciful beating. They secured seventy cents and a watch.

DAMAGE BY WATER.

KANSAS CITY, July 11.—The Missouri and Kaw rivers here are nearly one foot higher than yesterday with indications that they will continue to rise gradually for another 24 hours at least. The worst damage is at the railroad town of Armourdale, on the Kaw, where several streets are under from one to four feet of water.

Praise From a Positive Woman For Dr. Pierce's Favorite Prescription.

"I know what I am talking about when I praise it and always know what the result will be where it is used." That is Mrs. Martin's statement about Dr. Pierce's Favorite Prescription. What makes her so positive? Her own experience. "Favorite Prescription" had cured her of female weakness of several years' standing.

It is natural that a woman who has been cured of womanly disease by "Favorite Prescription" should believe it will cure others. It is natural too that she should recommend to other women the medicine which has cured her. It is such commendation and recommendation which has made the name of Dr. Pierce's Favorite Prescription a household word throughout the land. It is the women it has cured who are its firmest friends and most enthusiastic advocates.

There are cases of womanly disease which are not entirely curable by "Favorite Prescription," but such cases are very rare. There is no case of womanly disease which will not be greatly benefited, if not entirely cured, by the use of this medicine. In ninety-eight cases out of every hundred "Favorite Prescription" will perfectly and permanently cure diseases peculiarly womanly. It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness. It cures backache, headache, nervousness, sleeplessness and other consequences of local womanly diseases which undermine the general health.

Sick women, especially those suffering from diseases of long standing, are invited to consult Dr. Pierce by letter, free. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

FREE. Dr. Pierce's Common Sense Medical Adviser containing more than a thousand pages is sent FREE on receipt of stamps to pay expense of mailing ONLY. Send 31 one-cent stamps for the cloth-bound volume, or 21 stamps for the book in paper covers.

Address Dr. R. V. PIERCE, Buffalo, N. Y.

"IF WOMEN WOULD"

study the laws of health and use a little more common sense there would not be such a large number to-day suffering with the ills peculiar to our sex," writes Mrs. Sallie Martin, (President Mutual Social Science Club), of 180 South Halstead Street, Chicago, Ills. "Then when medicine is needed if they would take your well-known remedy, 'Favorite Prescription,' they would have a chance to get well instead of loading up their system with 'cure-alls,' of which they know nothing. I used Dr. Pierce's Favorite Prescription three years ago and it cured me of female weakness of several years' standing, so I know what I am talking about when I praise it and always know what the result will be where it is used."

WILL HAVE TWO HELLO SYSTEMS

COMMITTEE RECOMMENDS THAT
THE COUNCIL GRANT FRANCHISE
TO NEW COMPANY.

Oakland is to have a new competing telephone company, in all probability. Last night the Ordinance and Judiciary Committee of the Council recommended that the Council grant the Independent Telephone and Telegraph Company a franchise for a system, the franchise to run for fifty years.

Attorney Reed, of Reed and Nussbaumer, and Frank Woodward of Woodward, Watson & Co., represented the Telephone Company. Mr. Woodward spoke as follows in behalf of the granting of the franchise:

Woodward—We have organized an independent company in good faith. We wish to give the people a good service. In other cities independent telephones are working successfully and the people are satisfied. In Sacramento and San Jose there are such companies operating and giving the people an increased and better service. It is our desire to install a plant which will be independent of all telephone lines now existing.

Cuveller—Will you do away with the nuisance of the party telephone line?

Woodward—Yes, we have acquired a device on which one hundred people can speak on one line without overhearing each other.

Wixson—Would not another telephone company have the effect of making all merchants put in two telephones?

Woodward—Yes; but as most of the ordering nowadays is done by telephone, it would not hurt him, as it would increase his business.

Wixson—Will you have overhead wires?

Woodward—At first; but when the time comes we will be prepared to put them under ground.

Wixson—Would it not be well to compel all companies to put their wires underground?

Attorney Reed—The committee is not committing itself in any way in consideration of the application. The franchise that we wish must take the same course as all other franchises. It must be advertised and awarded to the highest bidder.

Woodward—Would your company be willing to pay the expenses of advertising the franchise?

Woodward—Certainly, we would.

Cuveller—I recommend that the granting of the franchise be recommended to the Council.

Fitzgerald—I think we ought to refer it first to the City Attorney and the City Engineer. I don't think we should recommend a proposition like this at once.

Attorney Reed—It will only facilitate our business and will not bind the Council to anything, as the Council can make a hundred amendments if necessary.

The committee took this view of it and recommended the granting of the franchise.

Superintendent of Streets Ott reported that he had repaired the sewer in Snyder avenue in Emeryville. The communication from the Pacific Paint Company on that subject was filed.

The petition of the property owners on Telegraph avenue between Fifty-second street and the northern boundary line of

the city was recommended.

SAN PABLO GRADE.

The petition to change the grade on San Pablo avenue between the south line of Alcatraz avenue and a point 400 feet south of San Francisco avenue was also recommended.

TWELFTH STREET DAM.

A communication was received from City Engineer Turner wherein he submitted plans for the improvement of the Twelfth street dam. The estimated cost of the dam is \$3,163.47. The City Engineer stated that there was no means by which the dam could be constructed at a less cost, if permanency were sought. The consideration of the plans was laid over one week.

ACCOUNTANT MACHINE.

The Auditing and Finance Committee recommended that City Treasurer Polton Taylor be granted permission to purchase a Fairbanks adding machine at a cost not to exceed \$25. The City Treasurer has had the machine on trial for the last nine months.

FOURTH STREET SEWER.

The resolution authorizing the construction of a sewer in and along Fourth street to the north at Newton avenue, to East Nineteenth street, along East Nineteenth street to Athol avenue, thence along Athol avenue to Lake Shore avenue, across Lake Shore avenue and across the line of proposed boulevard to Lake Merritt, was recommended.

ward to Lake Merritt, was recommended.

SEVENTEENTH STREET SEWER.

It was decided that the Street Committee that Superintendent of Streets Ott should further investigate the condition of the sewer in East Seventeenth street between Twenty-third and Twenty-second avenues, which is thought to be caved in, and an appropriation would be made to repair the damage.

WAIT FOR CITIZENS' REPORT.

The Street Committee laid over the resolution instructing the Board of Public Works to construct a catch basin at Twelfth and Alcatraz streets, as it is thought that the committee on Public Improvements will include this in their report.

WISH FIRE PROTECTION.

The resolution regarding the placing of a fire hydrant at First and Linden streets was laid over one week to permit Councilmen Cadman and Bishop to ascertain if the California Fruit Canning Association would be willing to stand part of the expense of having the hydrant placed there. This part of the town is without ample fire protection.

OAKLAND TRIBUNE
Tribune Publishing Company William E. Dargie, President
RECENT DEMOCRATIC YARNS. LAWLOR TO BE DISMISSED.

Only a few days ago the Democratic organs published a rather sensational story to the effect that Senator Hanna was preparing to declare war on President Roosevelt and carry it on to a finish on the "no quarter" basis. It was alleged that the trusts were mortally offended at the President and had decreed his political destruction. By calling down the best trust and interfering in the railroad merger and other cases of trust combination, so the tale went, the President had aroused the unrelenting hostility of the Morgans, Rockefellers, Vanderbilts, Hills and other trust promoters. Senator Hanna was accredited with being the special champion and political emissary of the trusts, and he was designated as the Jack-the-Killer, who had been selected to chop down the bean-stalk and cut off the head of the Presidential ogre.

A marvelously pretty tale this, which came very well just after Senator Hanna had been seen coming out of the President's dining-room with a well-fed look on his face as he slyly wiped his mouth on his coat cuff, after the manner of a man who had sat long at trencher in jovial company. But it served. Marry, anything will serve the Democrats these days, for they have little politics save back stairs tattling and glass throwing among themselves. However, it made the faithful elate with the idea that the Avenger was on the track of the hated Roosevelt. Henry Watterson threw out his chest and said the "broncho buster" was to be "busted."

Now comes Dudley G. Wooten, who declares that the President is the great friend of the trusts; that he is their idol, and that Attorney General Knox is their pet agent. Mr. Wooten is a Democrat, a silverite, a Congressman and "agin" the trusts with both feet, which are very large. He is from Texas, and is in Congress because he is from Texas. Mr. Wooten gives the lie to the story of the trust war on the President. He finds, or says he finds, that Senator Hanna has been selected, not to decapitate the President but to crown and anoint him as the real champion of the trusts. Roosevelt, he says, is the idol of the trusts and not Hanna.

Either one of these stories taken separately would make fair summer reading, but taken together their effect is rather perplexing. Once there was a man who became cross eyed trying to watch two horses running in opposite directions. Trying to follow the divergence of these two Democratic yarns at the same time, is likely to give a person mental strabismus. Just how much truth there is in them is very difficult to say. Perhaps there is as much truth in one as in the other, which is probably very little.

As a fact the President has undoubtedly offended a few of the trust magnates. On the other hand, he is a staunch friend to capital invested in legitimate enterprise and possesses the entire confidence of the moneyed interests as a whole. Those engaged in unlawful trust exploitation regard him with disfavor, but the great mass of investors and industrial organizers regard his course with entire satisfaction. The stock-watering trust promoter regards the President much as a bunco sharp would a vigilant police officer. Dudley G. Wooten regards capital as something accursed, and therefore looks upon a man having the confidence of capitalists as being akin to Belial. It is only the point of view.

The traditional jealousy between the Army and Navy is exhibited in the reply made by General Thomas M. Anderson to Admiral Dewey's contemptuous references to the co-called battle of Manila. In his testimony before the Senate Committee, Dewey alluded to that action as a sham. Gen. Anderson asserts, with some temper, that it was a bona fide engagement. Maybe it was, but the casualty roll does not indicate that it was much of a fight. In a day's attack on an extended line of fortifications defended by several thousand regular troops, the American force sustained a total loss in killed and wounded of 122. Sherman or Grant or Thomas would not have mentioned such an affair in their dispatches, but would have confined themselves to the statement that the city surrendered after some skirmishing. The battle of Manila was simply a reconnaissance in force. The defense was a farce. Dewey was right in characterizing it as a sham.

What a moral there is in the suicide of young Parmelee in San Francisco. A youth of nineteen blows his brains out in an obscure lodging house. He left no money or valuables among his effects, but a letter to his parents tells a story of waywardness, youthful dissipation and wasted opportunities. His father, a well-to-do merchant of Los Angeles, had reared and schooled his son with care, but the lad turned aside from the teachings and example of his father to follow the pace that kills. A penniless suicide at nineteen is the pathetic sequel to a short run on the path to ruin.

Judging from the newspaper reports, robbery and murder are very safe occupations in San Francisco just now. They are of frequent occurrence, but the police do not seem to capture anybody. This suggests that Tracy would find San Francisco a safe retreat.

FIREMAN'S FUND TO BE CREATED DR. R. C. BROWER TAKES HIS LIFE

DISABLED MEN AND FIREMEN'S WIDOWS TO RECEIVE AID FROM CITY. THE GARDEN AT A MON CHATEAU.

The Auditing and Finance Committee last night recommended that a fund to be known as the Fireman's Relief and Pension Fund be established and that provision be made in the next tax levy for the payment of \$3,000 worth of claims from disabled firemen.

The action was taken in accordance with the act of the Legislature passed in 1901, creating a Firemen's Relief, Health, Life Insurance and Pension Fund.

The creation of the fund was made necessary by the claims already filed under the State law.

An ordinance which has already been passed to print, providing for various funds for municipal purposes next year, will be revoked in order to allow the addition of the Fireman's Fund. The ordinance will then be reprinted. This will allow the Fireman's Fund to be provided for in this tax levy for the ensuing year. Otherwise the creation of the fund would have been delayed at least a year.

FLORIDA RAZORBACKS. New Jersey need not think her aquatic pigs are alone in their class. The Florida razorback thinks nothing of a swim of 10 miles, and the mother often follows an alligator into a lake and fights till a baby is released. In Lochloosa Lake, some years ago, the mother swam out and chased a full-grown, ravenous gator out of her bullwhip, and Captain Barker saw the feat from his porch. A swimmer across Nassau sound is a common feat, and sharks are viewed with supreme contempt by the Amelia Island "pig."—Jacksonville (Fla.) Times-Union.

MARRIAGE LICENSE NOT TO BE USED. YOUNG MAN PAYS FOR THE DOCUMENT BUT GIRL DENIES AN ENGAGEMENT.

T. Duncan Ferguson, a clerk residing at 713 Webster street, San Francisco, has a marriage license which was secretly procured at the County Clerk's office on Monday last, but which is not of much use to the young man, who gives his age as 35 years.

The license is an authorization of the marriage of Mr. Ferguson to Miss Margaret Montgomery, daughter of Charles A. Montgomery, a well known philanthropist and capitalist.

Although the license sanctions the marriage of the young couple, its issuance has caused a mass of tangled statements from the parents and brother of the bride-elect and from the groom.

It is said that the license was procured secretly that the young couple might be wedded in Livermore without the knowledge of the outside world. That the plans went sadly amiss is evidenced by the fact that Mr. Ferguson denies having procured the marriage license and his intended wife denies that even an engagement exists.

Mr. Montgomery and the young lady's brother also deny there was any engagement.

Ferguson stoutly maintains that an engagement existed, but that marriage was not thought of for at least a year.

NOTED BIOLOGIST WILL COME TO THE UNIVERSITY

Lecture on the Food of Animals—Dollars Saved for Placer Farmers—Famous Botanist Here.

BERKELEY, July 11.—Despite a recent dispatch from Chicago saying that the University of Chicago is determined to retain Professor Jacques Loeb, the noted biologist, in its service, it is confidently expected that next term will find him on the teaching staff of the State University.

President Vlieland has as yet made no official announcement of his acceptance of a position in the California faculty, and says that the matter is still in doubt. Those on the inside say, however, that the delay is occasioned only by the discussion of the smaller and less important matters, connected with his coming to this coast, and that his acceptance is practically assured.

This view is further sustained by a remark made by Professor Loeb to Professor Osterhout of the State University on the occasion of a visit of the former person to this coast three years ago. At that time Professor Loeb said that he would come to California for the same salary that he was receiving in Chicago. The opportunity for investigation in his line are such on this coast that it forms in itself a small independent factor in his decision. Further than this, the health of his wife and two children has been such that a change is most necessitated. If Professor Loeb finally accepts a position in the faculty of the University of California, he will be made Professor of Physiology, and will give

the world, and won him instant recognition. He has since developed the theory, and it is now accepted without dissent in every teaching and experimenting institution of the world.

MANY DOLLARS SAVED FOR PLACER PEACH GROWERS.

BERKELEY, July 11.—Warren T. Clarke, who has been investigating the peach worm around Newcastle in Placer county, has just forwarded to Professor Woodworth of the State University the data obtained from his researches.

Mr. Clarke, after making a thorough study of the worm and its habits, recommended that a certain spray be used at a certain time. The incoming crop has proved the wisdom of the suggestion, and he has been the means of saving hundreds of dollars to those orchardists who acted upon his advice.

The figures as furnished by Mr. Clarke are interesting. Those who did not use the spray suggested by him have lost from 50 per cent to 80 per cent of their crops from the ravages of the worm. In previous years it was thought that no matter what precautions were taken from 15 per cent to 24 per cent was a necessary loss. This year, however, the farmers who have adopted Mr. Clarke's suggestions have lost but from 5 per cent to 6 per cent, and in some cases, under particularly favorable conditions, but from 15 per cent to 1 per cent.

The worm is not foreign to the same extent in the other fruit sections of the country as in Placer county. It is now thought that its extermination is possible there.

The results of the investigations, together with the suggestions deduced from the data there obtained will be published in a bulletin which will make its appearance during the winter months.

WILL LECTURE ON THE FOODS FOR ANIMALS.

BERKELEY, July 11.—Professor William Arnold Henry of the University of Wisconsin is expected to arrive in Berkeley in the course of a few days to give, during the last three weeks of the summer school, a course on "The Rational Feeding of Live Stock on the Farm." This course will begin on Monday next.

Save 5/6 the light bill

It is just as reasonable and necessary to modulate an electric light as to regulate the brightness of an oil or gas light.

"Hylo" incandescent lamps can be turned up or down—a simple turn of the bulb reduces the light from 16 to 1 candle power and vice versa.

Many times you wish but a small light—the "Hylo" gives just enough to light up your front porch or hallway or to light up the rooms sufficient to prevent your stumbling over the furniture. A "Hylo" lamp burns all evening for only half cent cost.

We are sole agents for this celebrated lamp. They sell for 75c each.

Tailor-Made Suits—

\$7.50, \$7.95, \$12.50 and \$15.00

These prices would not suggest any great amount of style or quality. But they are not what they seem; they represent just about half the value of these costumes—the other half is the advantage you gain by buying now. They are in blue, black, brown and gray and the styles are those of to-day.

Korso

is the undervest, which is a corset cover too.

Korso is the only garment which can be worn as a combination of undervest and corset cover. By tucking the shoulder ribbons the upper part of KORSO can be folded over the top of the corset, covering it tightly and smoothly, leaving the neck and shoulders free. An ideal garment when thin waists and evening gowns are worn. No buttons, no bulk, dainty, cool, comfortable.

In fine ribbed cotton, lace and ribbon trimmed, 50c.

Muslin Underwear

This is out-of-door weather, nobody stays at home, who ever gets out. Naturally, it is not the season when a woman wants the finer kinds of muslin underwear. Although these prices appear to be very economical they represent unusually good values.

WILL SUE THE CONTRA COSTA

BERKELEY, July 11.—Niehaus Brothers and Company of West Berkeley, who suffered so disastrously a year ago on account of the destruction by fire of their planing mill, will shortly

bring suit against the Contra Costa Water Company for \$150,000 damages, it being alleged that the latter company had failed to fulfill its contract and had not applied the pressure of water at the mill which it had agreed to do.

The planing company will be joined in the suit by the Pennsylvania, Connecticut, American, Svea and Etna Insurance Companies. They will be represented in court by Goddell and Deis of San Francisco.

G. A. Schuster, the head of the mill firm, claims the fire could have been extinguished with a loss less than \$500 if a stream could have been thrown on it.
